

Visit MyMedicare.gov

Register at www.MyMedicare.gov to get your personalized Medicare information:

- Complete your Initial Enrollment Questionnaire so your bills can get paid correctly.
- Manage your personal information (such as medical conditions, allergies, and implanted devices).
- Manage your personal drug list and pharmacy information.
- Search for, add to, and manage a list of your favorite providers and access quality information about them.
- Track Original Medicare claims and your Part B deductible status.
- Order copies of your Medicare Summary Notice.

Use the “Blue Button”

Become an informed and empowered partner in your own health and health care by using the Blue Button on MyMedicare.gov. Having access to your personal health information can help you better understand your medical history, become an active stakeholder in your care, and partner more effectively with your health care providers.

Log into this safe, secure, reliable, and easy to use tool to do the following:

- Download your Original Medicare claims.
- Enter your personal health information (such as emergency contacts, medical conditions, and prescription drugs).
- Download your health information, so you can examine it, check it, and share it with your health care providers, caregivers, and family members.

Visit MyMedicare.gov to sign up for your account and use the Blue Button today.
